## The GRAPHIC COACHING CLINIC:

A fundamental training in the use of visuals in coaching, counseling and personal growth settings. As a Graphic Coaching pioneer, I teach you the underlying skills you need to add 'interactive graphics' to your own professional toolkit. This workshop focuses on the more intimate and personal applications (individual, couple and partner interactions). I'll take you step-by-step through an easy development of your skills – you'll be amazed by what you can do (no previous drawing experience is required). For coaches, therapists, counselors, social workers, consultants, trainers, etc. For more information, see [public workshop info page](#).

Can't make the dates of the public workshops? Prefer to have more direct and individualized attention? If so, I offer private workshops in my Victoria, B.C. studio (just minutes from the picturesque Inner Harbour). Agendas are tailored to your specific needs and skill level. [More Information](#)
